

## Save 7 hours

Manually transferring information from emails into Sage, then storing a hard copy? **Automatically and securely store all your data in OneDrive.**

## Save 5 hours

Toggling between Outlook & Sage to sync your information? **Sage Contact integrates all your contacts, emails and client information.**

Tied to your desk to access the data you need for a meeting? **Securely share work with customers, suppliers and partners in multiple locations.**

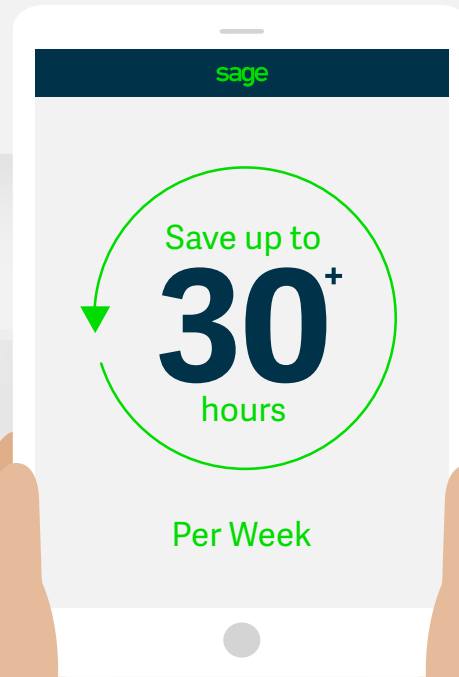

Manual data entry to reconcile your books? **Sage 50c connects directly to your bank account.**

Creating reports by hand and spending hours analysing data in Excel? **Sage 50c automatically organises your data in a clean, formatted way.**

# How to save time with Sage 50c

## Save 2 hours

Running multiple reports from different apps? **All your reports are integrated thanks to Sage Intelligence.**

## Save 1 hour

Saving, organising and manually logging receipts into the system? **Sage Capture lets you photograph and save any paperwork, from any device.**

Running back to the office to send out an invoice? **Create and send invoices remotely.**

Stuck in the office waiting for month-end numbers? **With OneDrive you can do complex accounting from any location with a wifi connection.**

## Save 30 mins

Backing up your data on to a USB so you can work from home? **Sage 50c automatically backs up your data in the cloud so you can access it wherever, whenever.**

Worry less. Work easier. Work together.
