Excel to Sage integration

Excelerator is the powerful, proven Excel add-in that creates seamless integration from Excel to Sage 200, Sage 500 and Sage 1000. With a mouse click, data is validated and updated to Sage with complete accuracy, redefining user expectations and cutting data processing costs by up to 50%.

Making the exceptional accessible

Most of us use Excel without even thinking about it, which is precisely the point. It's familiar, intuitive and supremely flexible: perfectly designed for autocomplete, calculations, formulas, highlighting fields, graphs and numerous other data entry tasks. Excelerator allows you to harness this familiar versatility to edit Sage accounts data without compromising Excel functionality in any way. You can edit and create new sales invoices, purchase orders, stock items and much more, using the elegant simplicity and user friendliness that is simply second nature.

Validation and control

Using Excel functionality for data entry, Excelerator is inherently flexible and user-friendly. However all validation and controls within Sage are maintained and applied in Excel, so the integrity of data and financial rigour are never compromised. This is a clear demonstration of how Excelerator assimilates the key advantages of both Excel and Sage.

Spreadsheet Designer

Excelerator includes the user-friendly Spreadsheet Designer. This elegant, powerful function allows you to take literally any spreadsheet and convert it effortlessly into an Excelerator Template. Now you can design spreadsheets as forms that are sent to and from customers. Where a third party application has been used, an Excelerator Template can be dropped as an overlay onto the spreadsheet, allowing data to be saved directly into Sage without the need for any custom software development.

Popularity

With over 4000 licences issued across the world, we hold 40% of the Sage 1000 and Sage 500 market. In fact, every reseller of these products has at least one Excelerator customer benefitting from our unique Excel to Sage integration.

Key benefits

- Increase productivity by 100%.
- Cut data processing costs by 50%.
- Capitalises on existing Excel skills.
- Reduce training costs.

Don't take our word for it

"We installed the tool when we were starting our year end and were amazed at how easy it was to install and use. We achieved a time saving of 10 days within the first month of implementation. Excelerator is a must-have for any organization using Sage." - **Keith Brown, Head of Technical Services, YHA**

"Excelerator has cut our Month end reporting time from seven days to five within the first month of implementation." - **Brian May, Finance Director, Bunzl**
